CONCRETE/PAINT MIXER - POWDP7080

With this Powerplus concrete and paint mixer you mix paint and concrete easier and much faster than in the traditional way. You even don't have to worry about extension cords on the building site, because the device works on a powerful 20V Li-ion battery.

The POWDP7080 is a lightweight, so you will have no issues holding it upright for a long period of time. With his soft grip you hold it firmly too. This cordless concrete and paint mixer has a powerful motor with a max. rotation of 650min⁻¹. The speed controller enables you to select the speed for different viscosity materials. No doubt you get the homogeneous mass without lumps you need and this without splashing thanks to the soft start motor.

The concrete and paint mixer is delivered with a 60cm mixing paddle and 2 wrenches. The 20V battery and charger are not included. You buy them separately and they are compatible with the whole Dual Power range. With Dual Power you save money, because you don't have to buy a new battery for every tool.
