

# DC 12V Rain Water Pump

Supplier Model	DCQ501
Certification	TUV /GS /CE
Voltage	12V
Rated Power	50W
Max Delivery Head	11m
Max Flow Rate	1500l/h
Submersible Depth.	0.5 m
Max.Grain Size	0.5mm
Cable Specification	0.5m*H05RN-F2G0.75mm <sup>2</sup>
Using time tested by supplier	30 min
Material of pump body	plastic
Motor Type	Brushless
Qty of Impeller	1
Dia of connection	G3/4"
Gift Box Size	49*20*9cm/1pcs
GW/NW	17.9kg/15.5kg/10pcs
Master Carton Size	51*42*46.5cm/10pcs
Qty per 20'GP	2,820pcs
Qty per 40'GP	5840pcs
Qty per 40'HQ	6850pcs

# DC 12V Rain Water Pump

Model	DCQ501
Mains supply	12VDC
Power rating	50W
Delivery rate	Max.1500l/h
Pump height	Max. 11m
Immersion depth	Max.0.5 m
Water temperature	Max. 35° C
Moisture protection of electrical parts	IPX4
Moisture protection of pump	IPX8
Pump weight	1.4kg

## **Feature:**

Simple , light and convenient to carry . It can be used at the place without the electricity, for water transfer in outdoors or irrigation. The battery can be continuous use to 30 minutes and max life time for battery is 300 hours.

## **Accessories:**

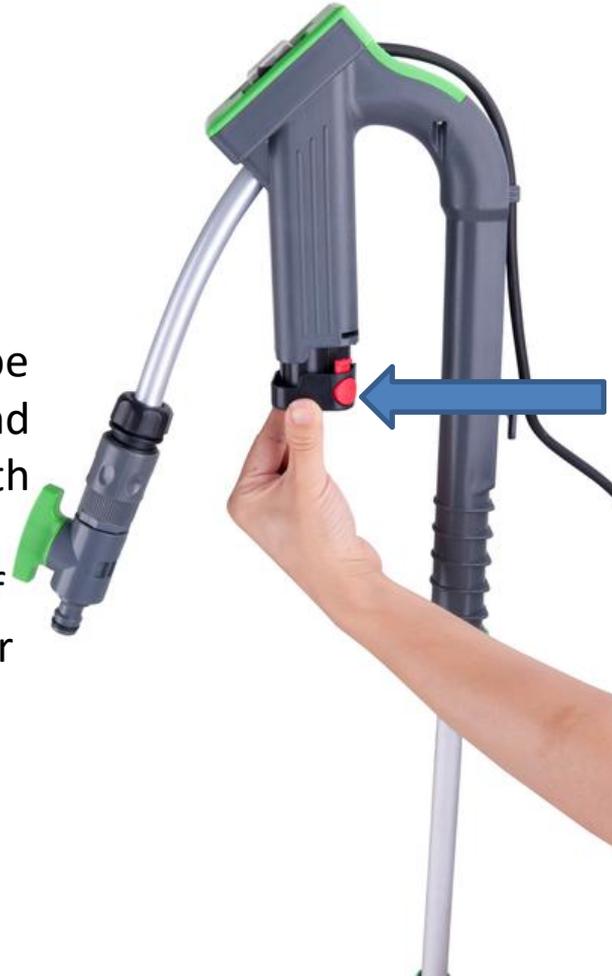

1\*2Ah battery pack; 1\*charger; a set of hose components.

# DC 12V Rain Water Pump

The hose could be stretching out and drawing back with purpose to fit different hight of wooden barrel or plastic tank with water.

Battery is installed here, press the red button could easliy take out the battery for electricty charging or replace with a new one if available
