HAMMER DRILL 20V - POWDP15600

This cordless 20V hammer drill from Powerplus has no less than three functions. It can be used for screwing, drilling and hammer drilling. The powerful hammer drill produces 0-5000 strokes per minute with an impact force of 1.3 joules. Therefore, it can also be used for heavier drilling jobs. The device has a drilling capacity of Ø16mm in wood, Ø13mm in stone and concrete and Ø10mm in steel.

Even your working comfort is taken into account: you work cordlessly and hold the tool even more firmly thanks to the second handle. Therefore, you are able to drill in stone and concrete with even more ease. The practical work light precisely marks the spot where the hole will be drilled. In the package you'll find the Dual Power hammer drill, as well as an SDS plus-type bit holder.

DISCOVER THE ENTIRE PRODUCT RANGE AT
WWW.DUAL-POWER.COM

Separate battery and charger

The battery and charger are not included. They are sold separately and are compatible with the entire Dual Power range.

Which Dual Power battery to use?

This 20V hammer drill is compatible with a 20V or 40V Dual Power battery. We recommend the use of a 40V battery, which offers you the optimal operating time.
