POWXG2008

HEDGE TRIMMER 600W

This 600W electric hedge trimmer is equipped with a rotatable handle for trimming hedges and shrubs with great ease and accuracy. You get an excellent reach and angle.

The 610mm laser cut blade trims branches with a diameter smaller than 20mm. For additional grip security and better comfort, the POWXG2008 is equipped with a second handle and a protective shield and nose. Moreover it features an electric brake that stops the double action blade quickly in time of need.

The cable relief helps prevent the extension cord from becoming unplugged during use. After the trimming job, you can safely store away the device with the safety blade cover.
