POWX240

TILE CUTTER 600W | Ø180mm

You can use this Powerplus tile cutter for cutting tiles, bricks, granite, marble and stone. The diamond saw blade is continuously cooled by the integrated water cooling. Fence and mitre can easily be adjusted. The built-in laser helps cutting very precisely and the electronically controlled soft start of the motor protects against excessively high starting load. You can easily install and remove the stand and use your machine in the workplace as well as on location.

This tile cutter does not require a lot of maintenance: regularly clean the housing with a soft cloth and clean the air vents preferably after each use.

TECHNICAL SPECIFICATIONS POWX240		Features	Box content	Symbols
Voltage	230-240V~ 50Hz	<ul style="list-style-type: none"> • Battery operated laser • Angle indicator & tilting range 45° • Mitre fence • Safety guard • Guide rail with scale • Laser • Water reservoir 	1x side guide
